WCSS/IEC Conference Update
Opportunity to Serve on the FIE Board
Professional Development Conferences
Teach English in Costa Rica
Job Opportunity

Send your announcements

WCSS/IEC Conference Update: We had a great gathering at the WCSS/IEC conference March 31/April 1st. The conference had great sessions. The highlight was the luncheon presentation by Greg Mortensen, who spoke eloquently about the need to understand the world around us, and the urgency in conveying that understanding to our students

Opportunity to Serve on the FIE Board: If you are interested in being on the Friends of International Education board, please contact our President, Natalie French at nfrench@rr.wi.com

Professional Development Conferences: NWEA will be October 9-10th in Eau Claire. We want to have a variety of offering at that conference. PLEASE consider providing a session with an international focus. Conference proposals are due June 1st. Visit the nwea website at www.nwea-ec.org

WCSS/IEC will be March 16-17th in Madison. We will be working more closely with this conference. Again, we will need MANY presenters who can speak on international themes. Proposal information for this conference will be available in fall.

Send your announcements: if you have information that you would like to make available to our membership through the newsletter, please send it to me at jannfreund@sbcglobal.net

Likewise, if you would like information on the list serve send it to me as well.

Teach English in Costa Rica: As a result of teachers who have traveled to Costa Rica we have become aware of a need for teachers to teach English to

students in the local school. The school is in a small town, Playa Tortuga, on the Pacific Coast. If you have about 3-4 weeks to give, this would be a wonderful opportunity to have an experience in Costa Rica and provide a needed skill to the local students. Consider taking students who want to improve their Spanish!

Contact Helen Urban at urbanhelen@aasd.k12.wi.us if you would like more information on this or information about teacher travel to that country.

Or teach in other places: The Teacher Education Department at the University of Wisconsin-River Falls invites applications for a tenure-track faculty position in STEM and Diversity Recruitment, in teacher education to begin fall of 2008. This faculty member will work as a team leader to meet the two goals of the UW-Systemwide Teacher Education initiative: (1) Recruit and retain a diverse student body in Teacher Education, and (2) increase numbers of math and science teacher education majors. For more information contact Dr. Jose Vega, Department of Teacher Education

jose.e.vega@uwrf.edu

HAPPY EARTH DAY -- Albeit a bit late
Judy Freund
